

For the quarter ended 31 March 2022

This fund update was first made publicly available on 3 May 2022

TAHITO Te Tai o Rehua Fund

What is the purpose of this update?

This document tells you how the TAHITO Te Tai o Rehua Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Fund is an indigenous ethical and sustainable fund. The Fund uses positive Environment, Social and Governance (ESG) integrated screens in selecting investments. Māori indigenous values and principles serve as the foundation to the Fund's philosophy and investment selection process. The Fund will provide actively managed exposure to a portfolio of primarily New Zealand and Australian companies that have been selected in accordance with the TAHITO investment philosophy. The Fund aims to generate a better return than the benchmark over the medium to long term.

Total value of the fund	\$11,093,426
Date the fund started	17 June 2021

What are the risks of investing?

Risk indicator for the TAHITO Te Tai o Rehua Fund¹:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 31 March 2022. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

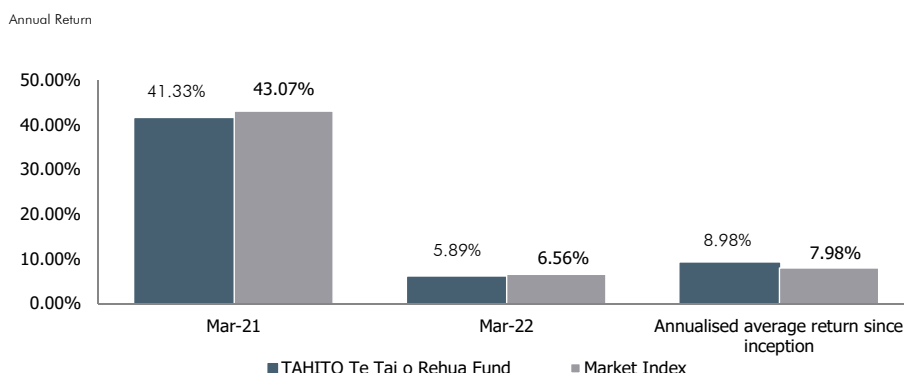

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past Year
Annual Fund Return (after deduction for fund charges and tax)	5.89%
Annual Fund Return (after deduction for fund charges but before tax)	6.53%
Market index annual return (reflects no deduction for charges and tax)	6.56%

We calculate the market index annual return by using 50% of the S&P/NZX 50 Portfolio Index Gross with Imputation and 50% of the S&P/ASX 200 Accumulation Index in NZ dollars². Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz/>

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2022. **Important:** This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the TAHITO Te Tai o Rehua Fund are charged fund charges. Based on the PDS dated 17 June 2021 these were:

	% of Net Asset Value
Total Fund Charges (incl GST)	1.26%
Comprising management and administration charges which are made up of:	
Manager's basic fee	0.86%
Other management and administration charges	0.40%

There are no performance fees charged in relation to the TAHITO Te Tai o Rehua Fund. Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Chris had \$10,000 in the TAHITO Te Tai o Rehua Fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of \$653 (that is 6.53% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of \$589 for the year.

Notes

1. Because the Fund has not been operational for the required five years we have determined the risk indicator using a combination of index and actual returns. Therefore, it may provide a less reliable indicator of potential future volatility.
2. The fund was originally established as a wholesale fund with performance inception of 8 October 2019, as such actual fund returns, adjusted for fees disclosed in the PDS, have been used to calculate the Actual Fund Return.
