TAHITO Founder and managing Director nominated for INFINZ Award

We are proud to announce that our TAHITO Ltd Managing Director Temuera Hall has been named as one of the finalists for the INFINZ “Te Tohu Kahukura”, the Invest New Zealand Māori Leadership in Finance Award. The purpose of Te Tohu Kahukura is to acknowledge, honour and celebrate the achievements of Māori leaders from within the financial services ecosystem in Aotearoa New Zealand.

June McCabe – Chairperson TAHITO Limited and Director Investment Services Group notes:

“Through Temuera’s leadership we have explored sustainable investing through an indigenous lens where balancing multiple objectives including sustainability, harmony, collective benefits and intergenerational timeframes are lead indicators of the stocks chosen by TAHITO Te Tai o Rehua.

Temuera, as founder, and the team are pioneers and TAHITO is a groundbreaking fund concept coming into its own. We are developing critical innovation in combining indigenous wisdom and conventional and responsible investment practices, in particular the application of Māori values and principles (kaupapa) that demonstrate how indigenous wisdom can help address climate challenges.

From a Finance Industry perspective this is very innovative in a sector that is needing creative solutions that deal with the inherent challenges of financial and non-financial investment objectives”.
