**TAHITO's parent company awarded Toitū Enviromark Gold Certification**

Investment Services Group (ISG), parent company to TAHITO, New Zealand's only indigenous ethical investing company, has been awarded Toitū Enviromark Gold Certification. This achievement recognises the significant steps TAHITO has taken to ensure the quality of life for future generations.

As part of their ongoing dedication to investing in listed companies that reflect Māori values, TAHITO combines indigenous wisdom with conventional financial experience to provide highly ethical and sustainable investment solutions.

TAHITO appeals to wholesale investors who want competitive market returns, but equally would like to see their capital applied to a high ethical standard, with investments that make a positive social and environmental impact.

Board member Temuera Hall said "The Toitū Enviromark Gold Certification supports our vision of rebuilding the connection between people and the environment. We are dedicated to investing in businesses that share our values, and we are proud to have been awarded gold certification."
